## SOME DANGEROUS FOES.

Our most dangerous foe in the present great world was the men who persuaded himself that the Kaiser will soon be whipped or driven back into his own national boundaries. The next is the man who "don't believe in fighting." A third is not particularly a foe but a contemptible something you cannot name without apology to the ghoul—the man of that low and mercenary nature that would make profit of this awful tragedy of human woe and carnage of death. That we have these particular types may not be the cause of such fearful upheavals, but the less we have of them, the easier they are to suppress. The wrong is often strong only in proportion to the unbelief, moral cowardice and mercenary nature of the non-resisting or those who have no part—Cumberland Presbyterian Banner.

Rightly stated—but then we have other dangerous foes in the guise of so-called patriots who chirp to the cry, "You must not criticize the Government, because that is disloyal." Such people are more interested in party than in country; more interested in saving the reputation of some incompetent official than in saving the lives of soldiers; more interested in suppressing the truth for fear somebody will be hurt politically, than in saving the nation.

This country needs to know the truth. We are not a nation of babies, fearing to face facts, but many people appear to think so. It is only by overturning the log and letting in the sunlight—that the worm-eaten, barren land gives forth fresh and vigorous life to vegetation. "Let in the sunlight of truth everywhere" should be the nation's rule.

## SOUTH AFRICA FINDS NEW FABRIC FOR PAPER.

South Africa has discovered a new source of paper supply. About 40,000 tons of bark of the wattle tree are exported annually from South and East Africa for use in tanyards, and experiments show that the bark, after the tanning properties have been removed, is capable of being converted into excellent brown paper or mill board.

## THIS WOMAN SAVED FROM AN OPERATION

By taking Lydia E. Pinkham's Vegetable Compound, One of Thousands of Such Cases.

Black River Falls, Wis.—"As Lydia E. Pinkham's Vegetable Compound saved me from an operation, I cannot say enough in praise of it. I suffered from organic troubles and my side hurt me so I could hardly be up from my bed, and I was unable to do my housework. I had the best doctors in Eau Claire and they wanted me to have an operation, but Lydia E. Pinkham's Vegetable Compound cured me so I did not need the operation, and I am telling all my friends about it."—Mrs. A. W. BINZER, Black River Falls, Wis.

It is just such experiences as that of Mrs. Binzer that have made this famous root and herb remedy a household word from ocean to ocean. Any woman who suffers from inflammation, ulceration, displacements, backache, nervousness, irregularities or "the blues" should not rest until she
